Mr. A.P. Demetroff
Department of Purchases
Room 470
#1 Main Street
Fort Wayne, Ind. 46802

Dear Sir:

Dictaphone Corporation is pleased to submit its proposal in response to your request for bid, Reference No. 664 for furnishing and installing "Logging Recorder System" for the Police Department.

The following attachment constitute our proposal to you in this regard:

- A. Bidders price proposal submitted on your proposal form.
- B. List of equipment to be furnished.
- C. List of equipment to be furnished on alternate bid.
- D. Series 4000 Warrenty Policy Statement.
- E. Dictaphone's Service Facility and Policy Statement.
- F. Dictaphone Training Policy Statement.
- G. Completed affirmative Action Form attached .
- H. Detailed specifications and brochures covering equipment to be furnished.

We appreciate this opportunity to be considered for suppling this equipment to the City of Fort Wayne.

Should any questions arise in connection with this proposal, please feel free to contact me on area code 513- 299-3531.

Cordially,

A handwritten signature in dark ink, appearing to read 'William C. Neick', written over a horizontal line.

Reference: Bid # 664 - Recording System

We ask that you review your bids before they are forwarded to us. No bid can be changed, altered or added to, after opening time.

1. Non-Completion of the name and signature section at the bottom of page one - Form DP2B-5-68. You must show your company name and address. You must sign your name and title.

2. Improper completion of "Proposal and Bid Surety Form." A Bid Bond (if required) must be completely filled out indicating if a bond or check (Certified or Cashiers only) is being furnished. This form must also be witnessed, and signatures affixed in the applicable places. If Bid Bond is being furnished it must be on this form, completed in its entirety. No alternate form of bond will be acceptable. If a certified or cashiers check is furnished the form is to be filled out down to the "Surety" section only.

Refer to the back page of form DP2B-5-68 for general conditions, instructions and information, to insure that you are correctly preparing your bid. This procedure will help to hold down the cost of doing business by preventing disqualification of bids and requests for rebidding.

A. T. Demetoff,
Director of Purchases

MULTI-CHANNEL LOGGING RECORDER SYSTEMGENERAL REQUIREMENTS:

- OK 1. It is the intent of this bid request and these specifications to procure a complete working system to fill the logging recorder needs of the City of Fort Wayne Communications Department.
- OK 2. Communications Department technicians will physically install the equipment. The vendor will supply qualified personnel to supervise the initial installation and the vendor will be responsible for the initial set up and check out of the system.
- OK 3. All equipment supplied for this system shall be completely operational before being accepted, and must have demonstrated its compliance to these specifications by performing in an acceptable manner for a period of at least two weeks before it will be accepted.
- OK 4. For a period of ninety days after acceptance, the vendor will make all necessary repairs or adjustments to this system, at vendors expense, not required by reason of accident or misuse.
- OK 5. For a period of one year after being accepted, the vendor will guarantee and will replace free of charge, any parts thereof which become defective or inoperative, except by reason of accident or misuse.
- OK 6. Two complete sets of service manuals are to be supplied for each piece of equipment supplied. These manuals will have complete circuit theory, schematic and wiring diagrams, component layout information, parts, lists, etc.
- OK 7. All equipment and material supplied are to be delivered F.O.B. Fort Wayne, Communications Department, City-County Building, Room B-24, Fort Wayne, Indiana 46802.
8. Vendors are to state Delivery schedule. — 90 Days

Responses are requested to this bid request in the following two ways:

1. For a Twenty (20) Channel System as Specified.

\$ 18,319.14

2. For System as Specified except capable of Thirty (30) Channels and expandable to Forty (40) Channels.

\$ 30059.50

2A. If two recorder-reproducers are required to meet the Thirty (30) Channel capacity, 40 Reels of 1" Tape as specified must be supplied for each recorder-reproducer.

\$ Not Required

2B. If two recorder-reproducers are required to meet the Thirty (30) Channel capacity, one portable reproducer with capability of playing tapes from either recorder-reproducer will be sufficient.

\$ Included Above

2C. Bids on this Thirty (30) Channel system are to Include the trade in of the following equipment.

Two (2) Dictaphone Model 248 Eight (8) channel dual transport recorder-reproducers, each with a time generator.

\$ 3509.00

One (1) Time reader for above recorder-reproducers.

\$ 70.51

One (1) Dictaphone Model 248 eight (8) Channel portable reproducer with time reader.

\$ 1000.00

Sixty-Five (65) approximately Reels of Scotch #8136 1/4" x 4800' magnetic recording tape on plastic reels.

\$ 0.00

Total	\$ <u>30059.50</u>
Less Trade-in	\$ <u>4599.51</u>
Less Discount ^{15%}	\$ <u>4508.73</u>
Total Net Price	\$ <u>20,951.06</u>

Delivery Schedule 90 Days From Date Order

Received

M. J. [Signature]

A. RECORDER/REPRODUCER - GENERAL

- A-1 The 20 channel recorder/reproducer shall be housed in an attractive upright cabinet approximately two feet wide, two feet deep, six feet high. The recorder/reproducer cabinet will include a transparent plastic front door equipped with a lock. The door will enable full visual access to the front panel of the recorder/reproducer while maintaining security of the equipment. Yes ☒ No ☐
- A-2 The Recorder/Reproducer shall incorporate two identical tape transport mechanisms. Each shall be designed to swing out from the rack on hinged panels for access to all components. The cabinet shall also be accessible from the rear. Yes ☒ No ☐
- A-3 Erase, single record and playback heads must be designed as single in-line assemblies, precluding the use of head bridge assembly. The use of the single head configuration, record and reproduce, will therefore minimize tape wear, which is a significant consideration with respect to tape life in logging recorder systems. Further, all head assemblies must preclude any azimuth or zenith adjustments whatsoever, so that replacement in the field can be accomplished without a technician and be interchangeable with any other like manufactured recorder or reproducer by this same replacement method. The record and reproduce heads must have connectors or opposite receptacles so that inadvertent misconnection is not possible. and shall not be hard wired to other than plug in connectors. Any noticeable degradation in the recorded signal, to the reproduce signal, will not be acceptable. Yes ☒ No ☐
- A3-1 It is understood that if more than 20 channels are to be accommodated on one inch tape, additional erase and record/reproduce heads (not in line) will be required. Yes ☒ No ☐
- A-4 The design of amplifiers shall be such that the necessity of a head demagnetizer or degausser not be required. Yes ☒ No ☐
- A-5 Tape transport shall be designed for straight line threading for ease in setup. Yes ☒ No ☐
- A-6 While the Recorder/Reproducer is set up for sequential operation (Fail-Safe) and one transport is recording, the drive motor of the alternate transport cannot be operational until switch-over occurs in order to provide extended operating life to the recorder system. Yes ☒ No ☐
- A-7 To insure a uniform signal, taut tape across the heads, a dual differential capstan drive system, coupled to a hysteresis synchronous motor, must be employed. This requirement is part of the specifications to preclude the use of "Pressure Pads" or Inertia idlers for tape tension, and/or for bringing tape in contact with the head assemblies. A low RPM heavy duty motor will be utilized in conjunction with this system. Yes ☒ No ☐

W. J. Smith

A-8 Each transport shall be capable of the following operational controls. Record, Run, Rewind, Fast-Forward, Cue, and Stop. All of the controls must be able to withstand heavy duty abuse by operators.

Yes ☒ No ☐

A-9 The equipment shall be designed to accept 10½" tape reels, with N.A.B. standard size hubs.

Yes ☒ No ☐

A-10 The hubs shall be manufactured to utilize precision detents for positive lock-in and to prevent reel wobble and true tape guide alignments.

Yes ☒ No ☐

A-11 The Record/Reproduce, Monitor Bias and Fail-Safe amplifiers must be on individual cards to prevent down time and other than any one channel during a failure to amplifiers. Each solid state plug-in amplifier shall be accessible from the front of the cabinet. Each record amplifier must have dual output with bias adjustments to complement each transport assembly. All amplifiers must be designed to provide a method for system test and checkout while the Recorder/Reproducer is in operation. Therefore, providing the ability to use extender card or cable if desired.

Yes ☒ No ☐

NOTE
Electronics
Superior
Mounted on
card or 10
amps each

A-12 The braking system shall utilize a solenoid-operated band on each torque motor employing exceptionally smooth and positive action. Brakes must be self-energized in the event of power failure to prevent tape runoff on the floor. The maximum stopping time shall not be more than six seconds in any mode.

Yes ☒ No ☐

A-13 The Recorder/Reproducer must include dual power supplies as a modular plug-in sub-assembly, which are also accessible from the front of the cabinet. Each power supply must provide a visible light to indicate which power supply is in operation. However, should a failure occur, the power supply will automatically switch to the alternate without loss of recorded signal.

Yes ☒ No ☐

A-14 The recorder/Reproducer shall operate at a transport speed, of 15/32 inches per second, and will provide in excess of 24 hours of continuous recording per 3600' of 1.0" width and 1.0 mil base tape. Anything other than these minimum specifications will not be acceptable.

Yes ☒ No ☐

A-15 All amplifiers incorporated in this equipment must be "plug-in" card type with low density component count for easy accessibility and repair. It should be able to replace any amplifier or head in less than five minutes by a non-technical operator.

Yes ☒ No ☐

A-16 The dual transport recorder/reproducer will be equipped to perform an automatic transfer of the transports, in the record mode, on a daily basis at a regular time.

Yes ☒ No ☐

10/1/68

A-17

The Recorder/Reproducer shall include a sensory system to provide "Fail-Safe" operation by starting the tandem transport and energizing an visual and audible alarm circuit in the event of equipment malfunction for one or more of the following reasons.

- | | |
|------------------------|-----------------------------------|
| 1. End of Tape | 2. Tape Breakage |
| 3. Bias Failure | 4. Failure of either power Supply |
| 5. Record failure | 6. Playback failure |
| 7. Record head failure | 8. Playback head failure |
| 9. Tape motion failure | |

Yes ☒ No ☐

A-18

It shall be possible to use the stand-by deck to monitor previously recorded tapes, if the stand-by or ready condition is not required.

Yes ☒ No ☐

A-19

If desired, both transports must be capable of simultaneously recording on all channels, without disabling the Fail-Safe system.

Yes ☒ No ☐*MM/2012*

B

RECORDER AND REPRODUCER - ELECTRICAL

- B-1 All electronic circuitry shall be of solid state modular design. Yes ☒ No ☐
- B-2 All 20 input channels shall be designed to bridge 600 ohm lines. Each channel shall have an individual input level control to permit operation with audio line levels between -30 and +20 dbm. Each channel, except time channel, will have record ACG amplifier providing a compression ration of approximately 6 to 1. Yes ☒ No ☐
- B-3 Signal to noise shall be 33 db or better in each channel (1000 Hz reference signal). Yes ☒ No ☐
- B-4 Crosstalk between channels shall be no less than 33 db below record signal level. Yes ☒ No ☐
- B-5 The frequency response in both the record and reproduce modes shall be 300 to 3000 Hz \pm 3 db minimum at 15/32 ips. Yes ☒ No ☐
- B-6 Wow and flutter shall be less than 5% at Tape speeds. Yes ☒ No ☐
- B-7 Distortion shall be less than 3% total rms. Yes ☒ No ☐
- B-8 Signal to noise, crosstalk frequency response, wow and flutter, distortion shall meet previously listed specifications on all channels one through twenty without exception. Yes ☒ No ☐
- B-9 The Recorder shall be designed for operation from 115V/60 Hz single phase source. Yes ☒ No ☐
- B-10 A high speed digital time generator and reader shall be provided. Both units shall employ 6 digit displays for hours, minutes and seconds. The high speed time reader shall be capable of reading time codes, placed on the tape by the associated time generator, in either the FAST FORWARD or REWIND modes. The reader unit shall incorporate error detection circuitry which will minimize the display of false readings. Such circuitry shall hold the last "good" reading in the display upon detection of false readings. The time reader shall be switchable to either transport or to the output of the time generator. Yes ☒ No ☐
- B-11 The high speed time generator will be equipped with necessary circuitry, and standby battery complete with automatic charger, to maintain the time generator during power failures. This feature will enable the time generator to continue to keep time during power failures, removing the need to reset the time generator after power failures. Yes ☒ No ☐

C

REPRODUCER

C-1

A separate single transport portable reproducer unit equipped with a high speed time reader shall be provided. It shall be compatible in every electrical and mechanical aspect with the previously specified recorder/reproducer.

Yes ☒ No ☐

C-2

The complete reproducer unit with its high speed time reader will be housed in a portable carrying case with handles for ease of portability.

Yes ☒ No ☐

D

TAPE

D-1

Forty (40) 3600' reels of high quality, low-noise recording tape on 10 $\frac{1}{2}$ " metallic NAB reels shall be provided.

Yes ☒ No ☐

E

TAPE DEGAUSSER

E-1

A commercial grade tape degausser designed for use with 3600' 10 $\frac{1}{2}$ " metallic NAB reels shall be provided.

Yes ☒ No ☐

BIDS WANTED - REFERENCE NO. 664

Sealed Proposals will be received by the City of Fort Wayne at the
Office of Department of Purchases, Number One Main Street, Room
470, Fort Wayne, Indiana, until Tuesday, August 26, 1975 - 10:00 A.M.
for the following items:

Logging Recorder System

Twenty (20) Channel System

Thirty (30) Channels and expandable to Forty (40) Channels

Each Bidder must submit a current 1975 written Affirmative Action Program with
his or her bid - Or - have on file with our E.E.O. Office for the current year.

Bid Forms, specifications, etc., may be obtained upon application at
the office and address given above.

A Bid Bond or Certified Check in the amount of \$ 5%
must be submitted with the bid.

PROPOSAL AND BID SURETY FORM

Page 12 of 12

PROPOSAL:

In compliance with the foregoing invitation to bid and subject to all of the conditions thereof the undersigned offers and agrees, if this bid is accepted within a reasonable time from date of opening of bids, to enter into a contract in accordance with the prices stated herein.

The Legal Advertisement, General Conditions, Instructions to Bidders, Information for Bidders, Special Conditions, Specifications, and Plans applying form a part of this proposal.

This proposal is supported by the following bid surety as required by law and signatures affixed thereto constitute both a proposal and bid surety executed by the bidder.

BID SURETY (REQUIRED BY LAW):

BOND FORM: (USE THIS BOND FORM—NO ALTERNATE FORM OF BOND WILL BE CONSIDERED).

KNOW ALL MEN BY THESE PRESENTS, THAT we, the undersigned, are held and firmly bound unto the City of Fort Wayne, State of Indiana, in the sum of One Thousand-One Hundred Dollars

.....Dollars, to be paid on demand to said City of Fort Wayne, its successors and assigns for which payment well and truly to be made, we hereby bind ourselves, our heirs, successors, executors, and administrators, jointly and severally firmly by these presents.

The condition of this obligation is such that if the bid or proposal attached hereto and made a part hereof and submitted to the within named division of the City of Fort Wayne or its duly constituted agent, is accepted and a contract awarded to the undersigned bidder and the said bidder shall within ten (10) days after notice of said award enter into a contract with the said City of Fort Wayne, State of Indiana, and shall secure the performance of the same by bond or otherwise as may be required to the satisfaction of the City of Fort Wayne, Indiana then this obligation shall be null and void; otherwise to be in full force and effect.
